RALEIGH, (SGRToday.com) - An audit of the UNC-Asheville financial statement has resulted in no reportable findings from State Auditor Beth Wood's office.

"We have completed a financial statement audit of The University of North Carolina at Asheville for the year ended June 30, 2014, and our audit results are included in this report," write Wood in a letter to legislators and the governor.

"You will note from the independent auditor's report that we determined that the financial statements are presented fairly in all material respects. The results of our tests disclosed no deficiencies in internal control over financial reporting that we consider to be material weaknesses in relation to our audit scope or any instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The complete audit can be found at
