RALEIGH, (SGRToday.com) - We're engaged in a fight against Gov. Pat McCrory. That's the message of a new fundraising e-mail distributed under the name of new Democratic Party Chairwoman Patsy Kever.

The e-mail, dated March 27, 2015 reads as follows:

"Last Saturday, the Houston Independent School System held a job fair in Greensboro, aggressively recruiting Triad teachers to Texas. This comes after a new National Education Association report shows North Carolina in the bottom ten in teacher-pay and dead last in the Southeast in funding per-student. This is an assault on our public education.

As a former teacher, I am committed to fighting to give our teachers the pay raise they deserve and put more resources in their classroom. Will you join our party in this fight with a \$5 contribution?

Governor McCrory has broken his promise to our teachers, students and working class families. Instead of investing in education, he has supported massive tax giveaways to millionaires and large corporations. Join us in our fight against McCrory: [Click here to donate \\$5 right now.](#)

The fact is this: McCrory cannot support massive cuts to public schools in order to fund tax giveaways to millionaires and large corporations in places like Texas and China. If you believe we need to invest in public education, I encourage you to donate \$5 today.

We can't do this without you.

Sincerely,

Patsy Kever, Chair
